

LAGUNA PEARL

STRIKING, UNIQUE, WEIGHTLESS

aLEGNA

IMMERSE YOURSELF AND FLOAT.

Forming a uniform and integrated frame, this bathtub guarantees the ultimate bathing pleasure. Since there is no irritating twist plug cap or uncomfortable overflow, you can stretch out your body the full length and completely relax. However, the wooden LAGUNA PEARL bathtub also distinguishes itself with further qualities: It is very easy to clean, requires no oiling or the like and even after years of use, it is captivating due to its uniqueness. LAGUNA PEARL, the free-standing model, allows for great freedom in terms of positioning within the room. Every room is enhanced in a special way by a free-standing wooden bathtub.

Due to its compact external dimensions and easy installation, it can also be fitted in an existing bathroom with minimal effort. Its elegant design and high-quality workmanship as well as the natural warmth of the wood make it the central element in every bathroom.

OUR PRODUCTS ARE MADE FROM PREMIUM MATERIALS.

Carefully selected wood veneers are compressed under high pressure and completely saturated with resin. This prevents the wood from splintering, saturating with water and exhibiting unsightly signs of wear.

The LAGUNA PEARL wooden bathtub is available in three different sizes and in all types of wood. The pleasant, fine finish is available in matt or gloss.

LAGUNA PEARL
