SACRED PERFECTION, TIMELESS, BEAUTIFUL

<sup>a</sup>LEGNA

## PERFECTLY STAGED WASHBASIN.

The soft curves of the LAGUNA ELLIPSE washbasins and their delicate finishes tempt you to touch them and are pleasing to the eyes. The understated, modern design makes every washbasin a luxurious unique specimen. The wooden washbasin not only stands out visually but also in terms of functionality and ease of maintenance.

We use particularly beautiful, continuous veneers for this washbasin, too. The customer can choose the type and grain of the wood.

The wood is coated with the best materials in an elaborate process and therefore permanently keeps its sophisticated appearance.

## PERMANENTLY BEAUTIFUL.

The wood veneers are compressed under high pressure and completely saturated with resin. This prevents the wood from splintering and saturating with water. The extremely hard-wearing coating has been tested extensively. It guarantees optimum protection and extremely high durability, even with frequent use.
