## COMPACT SPACE MIRACLE

Large bathrooms are a dream - small ones often a reality. So that you can dream big, we have reduced the space requirement of our LAGUNA COMPACT. This is how we created this great bathtub in our tried-and-tested design. The exterior dimensions are space-saving. Inside, however, the LAGUNA COMPACT offers just as much space as our large bathtubs.

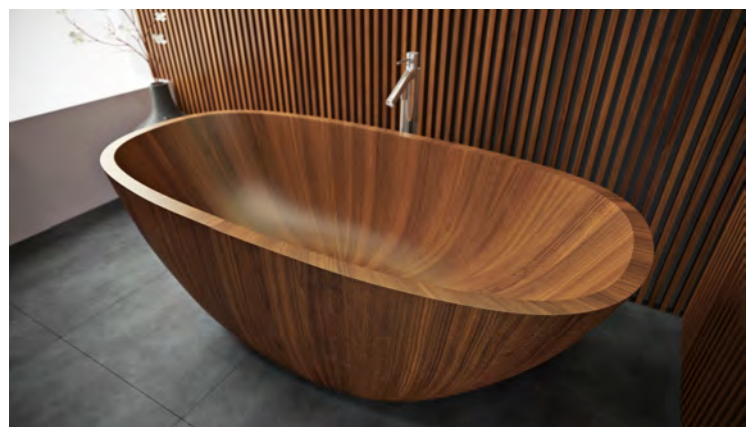

The secret of our LAGUNA COMPACT lies in its design. It makes the bathtub look particularly filigree and saves space. This is what gives it its elegant appearance. A special one-off and a jewel for every bathroom. And well suited for big dreamers with a little less space.

The bathing pleasure remains unchanged. Your LAGUNA COMPACT keeps the bath water pleasantly warm for a long time. Treat yourself to this special luxury.

## MADE OF BEST MATERIALS

Our bathtubs and lavabos incorporate all our knowledge and skills from boat building. This makes our products particularly robust and individual. And gives you a cuddly bathing experience. The surface of our products is flatteringly fine.

Every piece that leaves our factory is unique because we work with natural materials. You determine the type of wood and can select your favourite wood veneers in our manufacture. If you wish, we can integrate a whirlpool system for you. We can't imagine a more relaxing bath. And you?

## AT A GLANCE

- Swiss craftsmanship: Every LAGUNA COMPACT is available in all types of wood and is made by hand in Switzerland.
- Size: The model is available in two different sizes.
- Surface: Choose between a matt or high-gloss surface.
- Cleaning: Uncomplicated with little effort and no special care requirements.
- The LAGUNA COMPACT can be finished as a free-standing or built-in bathtub.
- Installation effort: The pre-installed siphon and overflow make our bathtubs particularly easy to install.
- Long life: 10-year guarantee
- Optional: We will be happy to install a whirlpool system in your bathtub.
- Other wishes? We do a lot to make your dream come true. Let us know if an ingredient is missing so that we can fill the gap for you.
